

INCREASING THE PAYABILITY OF THE BUSINESS ORGANIZATION BY INCREASING ECONOMIC EFFICIENCY

Assoc. Prof.Dr Jordanka Angelova¹

Abstract: *The purpose of the material is to examine the solvency ratios more closely as a factor and incentive to limit the financial loss in the business organization. For a business organization to work effectively, it is necessary for it to have a careful attitude towards its solvency in order to avoid bankruptcy.*

In this regard, the report presents cost-effectiveness indicators as a quantitative feature of a separate element of the financial position of the business organization. The report is also supported with guidelines for improving the solvency of the organization.

Keywords: *Solvency; Debt; Economic efficiency*
